Dear Ms. Wilson,

Re: Program Summary Reports, VQE-20-035060A, CAGE Code: N/A, Control Number:  
071481 and 072757

We have reviewed and approved the following program summary reports for the assigned reporting periods from your facility:

1. Annual Summary of Testing, MIL-STD-750, FSC: 5961, Period Covered: January 01, 2019 - December 31, 2019, Note /1

Failure to submit your summary reports in a timely manner may result in your removal from applicable programs/listings. Your next program summary reports for the programs listed above are due as follows:

1. Annual Summary of Testing, MIL-STD-750, FSC: 5961, Period Covered: January 01, 2020 - December 31, 2020, Due by: March 01, 2021

Notes:

/1 Your laboratory suitability status, granted by DLA Land and Maritime, will continue to be valid under the conditions listed in DOD 4120.24M and SD-6.

If you have any questions, please contact Mr. Alan Barone, 614-692-0510.

Sincerely,

Dear Ms. Wilson,

Re: Program Summary Reports, VQH-20-035059, CAGE Code: N/A, Control Number: 071477

We have reviewed and approved the following program summary reports for the assigned reporting periods from your facility:

1. Annual Summary of Testing, MIL-STD-883, FSC: 5962, Period Covered: January 01, 2019 - December 31, 2019, Note /1

Failure to submit your summary reports in a timely manner may result in your removal from applicable programs/listings. Your next program summary reports for the programs listed above are due as follows:

1. Annual Summary of Testing, MIL-STD-883, FSC: 5962, Period Covered: January 01, 2020 - December 31, 2020, Due by: March 01, 2021

Notes:

/1 Your laboratory suitability status, granted by DLA Land and Maritime, will continue to be valid under the conditions listed in DOD 4120.24M and SD-6.

If you have any questions, please contact Mr. Daniel Miller, 614-692-2908.

Sincerely,

Ms. Frona Wilson  
Eurofins EAG Materials Science, LLC,  
112 Racquette Drive  
Fort Collins, CO 80524-2757

Dear Ms. Wilson:

Re: Commercial Laboratory Suitability Status, MIL-STD-883/MIL-STD-750, FSC 5962/5961,  
VQE-20-035153, CAGE Code: N/A, Control Number: 072757

As a result of our audit during the week of August 30, 2016, your facility at the above address is considered suitably equipped to perform testing on military devices for the following test methods of MIL-STD-883 and MIL-STD-750:

<u>TEST</u>	<u>METHOD (883/750)</u>	<u>CONDITION (883/750)</u>
Stabilization Bake	1008/ n/a	C
Seal	1014/1071	CH <sub>1</sub> & CH <sub>2</sub>
Internal Water Vapor Content	1018/1018	(volumes listed below)
<u>System Serial Number (MS)</u>	<u>Volume</u>	
0092	.01 to 20cm <sup>3</sup>	
0122	.01 to 1.0cm <sup>3</sup>	
0166	.01 to 20cm <sup>3</sup>	

This suitability is valid until terminated in writing by the office of primary interest (OPI), qualifying activity. Your laboratory may be re-audited on a drop-in basis and commercial laboratory suitability may be withdrawn by this Center at any time.

This suitability prohibits your company from removing or altering the device marking. Any device that fails testing conditions shall be identified (isolated) as a reject and returned to the device manufacturer for verification of failure mode or the device(s) shall be destroyed with manufacturer approval under government witness.

The approved test methods and procedures shall be used for all military testing. Any time the test method is specified in a contract or purchase order, etc., you must comply fully with the specified test method. Whenever the military standard is specified, the testing must be performed in accordance with the DSCC approved procedure, to all the military standard requirements, and in accordance with what was demonstrated during the DSCC audit. Any exceptions to the DLA Land and Maritime approved test method must be clearly stated in the contract. However, under no circumstances can changes, exceptions, waivers, etc., be applied when a test is done on a QPL or QML product unless the test method is officially amended or revised by the preparing activity of the military document.

Electrostatic discharge sensitivity (ESDS) requirements are enforced by this Center. Therefore, all hybrid/monolithic electronic devices will be handled as ESD sensitive (category 1), unless otherwise notified by the device manufacturer. MIL-PRF-19500 semiconductor devices are handled per their respective markings. Consequently, all processing procedures will incorporate the handling, testing, and packaging requirements according to the guidelines in MIL-HDBK-263 and JESD625.

To maintain laboratory suitability status for the above listed test methods, you are required to compile a summary of all hybrid/monolithic electronic devices tested to the requirements of the above test methods. This summary and other information described below shall be submitted every twelve months.

Your standard reporting period will include work performed from January 1 through December 31. Your next retention report shall be submitted to DLA Land and Maritime by March 1, 2021. The retention report shall include the items in section IV of DLA Land and Maritime's Laboratory Suitability Information booklet.

The use of your laboratory for performing testing is subject to conditions stated in 4120.24-M and SD-6.

If you have any questions, please contact Mr. Alan Barone at (614) 692-0510.

Sincerely,
