

OUR VISION

To be the most trusted global partner in testing and materials analysis.

OUR MISSION

We leverage the power of science and engineering to accelerate innovation through creative problem-solving, objective analysis and expert interpretation of data.

OUR VALUES

Foster a Growth Mindset

When our customers grow, we grow. We always strive to learn something new.

Find a Better Way

We face new and unique challenges every day and find new and creative ways to solve them.

Win More Loyal Customers

Customers call us with problems. We work to understand the problem, develop solutions, and deliver the results in a timely and scientifically sound manner.

Win Together

We are a global network of laboratories.
